Dear **Mr Haysam Mohtadi**,

I have great pleasure in advising you that ApprovalMark International has approved the certification under the WaterMark Level 1 Certification Scheme as follows:

**Certificate Number:** WM 74625

**Reference Standard:** AS/NZS 2638.2: 2011 - Gate valves for waterworks purposes - Resilient seated

**WaterMark User:** Fire Industry Supplies  
300A Darraweit Road,  
Wallan 3756  
VIC

Your formal certificate and schedule are attached separately for your business purposes. We would like to take this opportunity to remind you that you are required to comply with the rules of the WaterMark Scheme as per the signed documentation at the beginning of the application including:

- ApprovalMark International Application Form
- Australian Building Codes Board (ABCB) WaterMark User Agreement
- ApprovalMark International Licensing Agreement

As part of ApprovalMark International's certification process, a separate invoice for this certification will be provided for your immediate action. Once this payment has been made, ApprovalMark International will then upload your certification and schedule to the ABCB WaterMark Database and the Joint Accreditation System of Australia and New Zealand (JAS-ANZ) register. **Please note that your products will not be recognized as being certified if the certificate and schedule are not available on the mentioned registers.**

I would like to offer my personal congratulations for achieving this certification and we here at ApprovalMark International look forward to maintaining our ongoing relationship. If you have any questions or require additional information please do not hesitate to contact me.

Sincerely,

John Prasad

ApprovalMark
